

EM Validation Workshop

September 28, 2010 9am-5pm CABM 010

CryoEM is a fast-growing field that has become an important method in structural biology research. A panel of leading scientists have been invited to this workshop in order to address the important question of how to validate structural results obtained from cryoEM, including 3D map volumes and fitted coordinate models.

Lunch will be available for registered participants. Register by sending an email confirming your participation by 20 September to:

emvtf-admin@rcsb.rutgers.edu

The full agenda for the workshop and additional details can be found at:

<http://vtf.emdatabank.org>

Meeting Organizers

Wah Chiu, Baylor College of Medicine
 Helen Berman, Rutgers University
 Cathy Lawson, Rutgers University
 Gerard Kleywegt, EMBL-EBI

Validation Task Force

Richard Henderson, MRC Laboratory of Molecular Biology (Co-chair)
 Andrej Sali, University of California at San Francisco (Co-chair)
 Matthew Baker, Baylor College of Medicine
 Bridget Carragher, The Scripps Research Institute
 Kenneth Downing, Lawrence Berkeley Laboratory
 Edward Egelman, University of Virginia
 Joachim Frank, Columbia University Medical Center
 Nikolaus Grigorieff, Brandeis University
 Barry Honig, Columbia University Medical Center
 Wen Jiang, Purdue University
 Steven Ludtke, Baylor College of Medicine
 Ohad Medalia, Ben-Gurion University
 Ron Milligan, The Scripps Research Institute
 Peter Rosenthal, National Institute for Medical Research
 Michael Rossmann, Purdue University
 Pawel Penczek, U. Texas-Houston Medical School
 Michael Schmid, Baylor College of Medicine
 Gunnar Schroeder, Forschungszentrum Jülich
 Alasdair Steven, National Institutes of Health NIAMS
 Florence Tama, University of Arizona
 Maya Topf, University of London Birkbeck
 Willy Wriggers, D.E. Shaw Research
